

Money Matters

Needing it

You need it now. Next month you'll need more. The need for money only ends when you die.

And when you die it would be nice to leave something behind for your heirs.

You need retirement money and you might need money to help your friends, loved ones, and favorite causes.

No one wants money or A LACK OF MONEY to control his life.

Earning It

Money isn't everything. Work at something you love if you can. Don't let the pursuit of money rob you of your life.

Business owners earn money from the work of their employees. John Paul Getty said, "It is better to earn 1% times the work of 100 men than 100% times the work of myself."

People with limited skills may earn \$10 per hour while a top lawyer might make \$500 and a big company CEO might make \$10,000 an hour.

It's better to earn money from investments than from work, but where will you get the capital with which to invest?

It's also better to earn money from royalties if you have the ability to create a valuable intellectual property.

Network Marketing gives "average people" a way to build intellectual royalties. The John Paul Getty formula is really possible.

Understanding It

Money is not bad. It's the LOVE OF MONEY that is wrong. It's when money is used badly.

Nor is networking bad. It can be a path to \$500 or \$5,000 a month, or even \$25,000...plus a lot of personal freedom. And royalty benefits for the future.

One Page Tells All. This easy-to-reproduce flyer will help you earn \$\$\$...and maybe change your life.

Ambitious Men or Women:

Please consider an offer that is easy to understand, easy to present, good for your family's health, consistent with a better environment, and potentially very profitable.

Our network system offers full support to help you reach \$2,500 per month with 40 people. And then every month. With more people, 5 or 10 times that amount is possible. Earnings are tied to numbers of people and leaders.

You've heard this before? Not like this. You have a plan in hand—a free plan—for achieving network success.

Our career plan, called Million Friends, is outlined here:

My favorite product is LivingWater.

From my teenage years when I started menstruation I had migraine headaches with each period. They interfered with school, work, and every part of life. Now I am 35. Over two years ago we installed our ionizer without knowing what to expect. Two weeks later my period started and I had no headaches. We waited a month to see if this was really going to last. And it did. My migraines went from severe to zero. In June 2010 I had my first migraine in over half a year. My husband checked the unit and, sure enough, it had stopped working. Once he corrected the problem, my headache was gone within a few hours. I love drinking LivingWater. I make bottles of water for our family to use every day, we proudly serve it to guests, we take it on trips and even our Chihuahua loves it. When she stays with my neighbor she won't drink their water. As soon as we bring her home she runs to the kitchen and drinks, drinks, drinks."

Enrollment ranges from zero to \$3,000. So why not come aboard?

We have exceptional products. Our 4 most important lines are summarized on this flyer and on the web links that are provided.

Our Online training is excellent and it is free. You can find Lesson 1 from the Email Recruiter link at left.

Chances are, you've heard of a dozen network companies but not ours. Our name is Vollara. Our history reaches back more than two decades, but our former company died out a few months after the recession hit.

We now have strong new ownership and a big future. We inherited a huge manufacturing plant and a principal owner whose goal is to build the world's next network marketing giant. For you and for us, the future is very exciting. As the US economy recovers we will be positioned to ride the new wave forward.
