

A no-cost money making option for you!

The Million Dollar Experiment

This **experiment** makes perfect sense and it checks out mathematically, but now we are testing it in the real world. The good news: **It costs nothing to try.**

It could be worth more than a million dollars to you.

**Who will get the million dollars?
When can we spend it?**

"A million dollars" is a figure of speech. It could be worth much less than a million or much more. Its benefits are also available to your friends, your son or daughter, your parents and to people who, at present, are perfect strangers.

As our company expands, it could be worth **BIG CAREER MONEY** (millions) to hundreds of our best leaders. It could be worth good part-time money to ten thousand others. That's factually true, and it costs nothing to put your name in the system.

The benefits will be paid out over many years based on the productivity of your network. You can spend it only after you earn it.

Your Gold level earnings could be \$2K or more every 28 days and a car bonus. Two levels higher it could be \$8K and a car. There are many levels and no limit. And it could last for the rest of your life. A relatively modest \$5K per month for 20 years is \$1,200,000.

Is this just a theory or have big success levels ever been achieved? The author of this presentation (this program's all-time income leader), has earned \$12 million in 16.5 years.

**This program is honest...verifiable
...available to all...and free to try.**

How can I make a million dollars if I don't spend any money?

We'll be clear...you don't have to spend any money—not even a dime—right now. **You can be dead broke or highly cautious and spend zero.** You will be better off if you order a Fast Start Pack for \$2,000...but that's an option, not a requirement.

A financially stressed participant who is willing to work can go for 11 months without spending money. Not a dime!

In Month 12 you will have to spend a little to renew your distributorship. Or you can drop out if you haven't done anything. **This is the real deal: a way to put your name in the system and move ahead toward success with zero financial outlay.**

You won't make any profit—not even that proverbial dime—as long as you are spending zero, but you can be laying your foundation. There's nothing wrong with future profits! ***If all goes well, the day will come when you can step into an immediate profit only one month after becoming active.***

We've never offered our business this way before and that's why it's being called an experiment. There are no holes in our logic. The only question is: Will people who invest nothing really participate? We shall see.

If your heart is filled with hope and determination you can start a business with zero dollars.

You can build to a point where you can step into a real profit shortly after your first purchase—and never look back.

This "start for free" option is available now but we cannot guarantee that part. It is 100% up to the company.

Vollara's home office is in this Dallas office complex. Our network marketing history reaches back to 1988 but we've been through two ownership changes and only became Vollara in 2010. In this restart period we are still small, but our new owner has been a leader in the business world for more than 25 years. Our product reputation reaches back more than 20 years. Our goal now is to become the world's finest—and eventually biggest—home-based opportunity.

We want to take you on this great success ride with us!

You can be young, middle-aged or old; well to do or in financial bondage; experienced or not so experienced. Our Million Friends System will train and support you. It's not a free ride, but it's 100% real.

This Fast Start Pack...

... is the best bargain in network marketing but 100% optional. New distributors who buy this pack in their first 14 days get a price that is 23% below wholesale. Other great bargains are offered every month!

We have a unique mix of environment-attuned, health-related, and profit-friendly products...including big ticket items (water ionization, air purification, LaundryPure) and enzyme-based nutrition products.

"Stop!" you say.
"Your opening said I could start with zero expense. Buying these products will cost money."

It will be helpful if you are in a position to order and use these products...you will love them. But it is not required.

The theory of our experiment will be clear. For now, what we've told you is correct: Your cost to sign up and be involved—for 11 months—can be zero.

When it comes to making money, no factor makes a bigger difference than timing. When timing is perfect, many people make money in real estate, in the stock market or by starting new businesses. When timing is terrible, these kinds of ventures are far harder. Network marketing is like that, too. Timing really matters!

Consider these positives:

- The US economy has nowhere to go but up.

Inflation is coming, too. Take action now if you want to stay ahead of it.

- We're a small company with an unrestricted opportunity for growth (plus committed and experienced ownership).
- Baby boom #2 (see graph) will provide 4 million new prospects reaching age 18 every year through 2023. These people are consumers, workers, taxpayers, movers and shakers and investors. The outlook is positive for 30+ years.

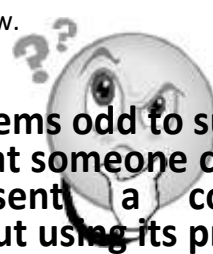

How long will it take to reach this magical point where my free business will be profitable?

That will depend, in part, on the strength of your belief. If you are saying...**"This opportunity has smiled on me and, by the grace of God, I'm not going to let it get away,"** profitability can be achieved in 60 or 90 days.

It's in each entrepreneur's hands. How effective will you be at telling the Vollara story? How many prospects will you reach out to?

The name of the game is to build a network. The bigger the better. The faster the better. The more talent you can find; the better! Start using your free websites and free conference calls right now.

It seems odd to suggest that someone could represent a company without using its products. How can I know if a product is good if I've never used it?

- You will learn a lot about Vollara products from your free websites—MyVollara.com, MoreVollara.com and Chippynews.com—and from our free Million Friends calls (find the schedule/phone number/code on Chippynews.com).
- A realtor doesn't have to own a \$5 million dollar home to successfully sell multimillion dollar homes! Our products show well and they speak for themselves. If you invite enough people to look at Vollara, you will make progress.

We offer a zero cost option for 4 reasons:

Our system offers support, support and more support.

1. Some people are in deep financial trouble. We do not want to block these people out.
2. Our zero cost offer makes recruiting much easier. Tell our story and ask people to join. There's no reason for a serious person to say no.
3. **We trust that you will start using Vollara products when you're ready. You'll probably be eager!**
4. Through this offer we can expose a lot of wonderful people to our good company, outstanding products, amazing timing and life-changing opportunity.

Our system has 4 basic steps. In the zero cost option, step #2 moves down.
