

# Life is Giving You a Second Chance!

What would have happened if I'd made different choices as I proceeded through life? If I'd gone into real estate or computers or plastics? Or if I'd bought \$10,000 worth of Microsoft the day it came out...and moved into Intel a year later?

Such questions are classically unanswerable. We brush them aside. "We can't change the past." "Don't cry over spilt milk." But what if something monstrously good and essentially unstoppable were in your hands right now? **Would you grab it?**

**We are looking for 5 types of people**

**Most people have never earned \$250K per year. Will you consider a Vollara career if this is a possibility?**

Look at these little people icons. To earn \$250K or more, build 26 people within your network to Vollara's GOLD rank.

Model #4 is Gold. It is reached with 2 or 3 people at the Silver rank. We show you exactly how to do this. Our Spiral Notebook document explains where to find prospects (free prospects), what to say, and how to sort the good ones from the bad.

More blocks equals more income. Refer to the \$8,000 model. Help 10 people reach \$2K; you'll make \$8K. All well-run businesses work in exactly the same way.

Network Marketing means moving products through large numbers of distributors. Good recruiters/leaders can expand their groups across America. Maybe to other countries.

The goal you set is up to you. No pressure. The process begins with an appreciation for Vollara products.

 and millions of Americans are candidates...

**Isn't this a better offer than any job or opportunity  
 that is currently available to you?**

## Let's Talk Marketing

The smart phone industry is booming! The car industry has rebounded. This is happening because we are under the influence of a second Baby Boom. America has 45 million young adults between 18 and 31 and each year through 2023 another 4 million will reach their 18th birthday. ***This information can make you rich.***

On the other hand, ignoring this could be costly. We are about to enter a period of high inflation. Every expert is aware of this. Within 5 or 6 years you'll need \$80,000 to cover every \$50,000 of expenses in today's dollars.

## The Baby Boom #2 Market

Some of our conference call presentations specifically target this age group. A short visit to [www.chippynews.com/YoungMarket.htm](http://www.chippynews.com/YoungMarket.htm) could turn out to be the smartest move you have made in decades. If you are old, you probably missed out on buying a McDonalds when they were cheap. If you're middle aged, you didn't have enough investment capital to make a killing during the dot.com stock boom. If you're anywhere close to the prime of life, you probably suffered some losses in the recession.
