

# Lake Marionettes Fundraiser

sponsored by Lake Marionette parents  
Bob & Liudmila Giddens

About Lake Mary High School's Dance Group  
<http://www.LMHSmarionettes.com>

*Full or part-time opportunities for  
leadership minded individuals.*

## Reasons to Respond

■ Try an air and surface purifier in your home free for 5 days.

■ Try 10 gallons of ionized, alkaline water. You supply the containers.

No purchase required.

■ View our 4.8 minute video and return the form on back. The girls earn \$10 per form!

■ Wash a load of towels with cold water and zero detergent.

■ Air, water, laundry purchase. The girls earn \$40.

Check the boxes that apply and send this by mail to **Bob & Mila Giddens, PO Box 520940, Longwood, FL 32752**. If you want one of the appointments call **407-739-4143**.

- We have asthma and/or dust allergies and/or pet, cigarette, mold or other home odor issues. We would like to see what effect your equipment will have on our environment.
- We have heard about ionized, alkaline water and would like to try some of your water. We understand the ion power (called negative ORP) is highest when the water is freshly made. We will look for better regularity, more restful sleep and other effects.
- We will put 4-6 towels in a plastic bag and send them to your home to be washed with LaundryPure water (the unit mounts on the wall behind the washing machine and uses an exotic process to inject hydrogen peroxide into the wash and rinse waters. We want to see if there is zero smell and increased body or fluffiness! And we understand this unit pays for itself through detergent and water heating savings.
- When we come to your home to pick up water or when you come to our home to set up one of the demos, we would like to taste your **Re:Plenish** antioxidant drink that is made from American grown muscadine grapes.
- We would like additional information on your distributorship program...but we don't want to be pushed or hounded.
- We would like to receive information on the second baby boom that began in 1980 and will profoundly impact the economy for 25+ years.
