

## Build This Group!

## 4 Simple Decisions...

This page shows exactly how to build a \$30,000 income and, potentially, ten times that amount.

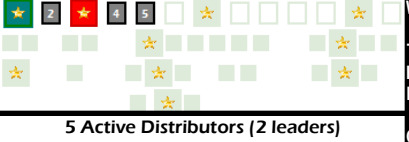

Network marketing is not as mysterious as it sometimes seems. This sheet shows how a part-time or full-time participant can create a \$2,500 per month income in 6 reasonable, achievable steps.

The process begins with **Decisions 1 and 2.**

**Sign up today. Begin using Vollara products.**

The products you will be testing include air/surface purification, water ionization, natural, enzyme-based food supplements, and a detergent-free laundry process. Product details are available on 3 free websites.

**Decision 3.** Use [www.ChippyNews.com/EmailRecruiting.htm](http://www.ChippyNews.com/EmailRecruiting.htm) and this page to recruit other people. A personalized flyer is also available. Visit [www.chippynews.com/OnePage.htm](http://www.chippynews.com/OnePage.htm).

**Decision 4.** Don't quit, don't stop, don't despair, and never give up.

Use the free Million Friends system ([www.chippynews.com/KISS11.htm](http://www.chippynews.com/KISS11.htm)) for training, inspiration, ideas, and network support. The Million Friends system teaches a professional approach that even works for people who are uncomfortable with network marketing.

Our progression shows you recruiting 5 people in your first 2 months. That's not so hard. But for most networkers the process then stalls out. The difference we offer is Million Friends. Your new people have a free, non-threatening way to make progress with this system.

Some of your people will just be distributors. Our system accommodates and appreciates these people. They are illustrated in our model as small boxes. Experience suggests that about 1 person in 10 will emerge as a leader. Your leaders will do most of the recruiting and training.

Most people are surprised to discover that \$30,000 a year is possible with such a small group. Multiply 40 people times \$250 each month. This modest built-from-home group can easily do \$120,000 in annual business.

That's more than this store did before Sam Walton took over. **Before he bought this store, it did \$72,000 in annual sales. Five years under Walton took it to \$250,000 in annual sales.**

We're not saying you can become as rich as the Walton family. But the process of building a Vollara network is similar to what Mr. Walton did to build Wal-Mart. He started with \$25,000. Our pack is \$2,097 and if you add a LaundryPure Pack (Million Friends idea) you will spend \$2,695...with tax and shipping it may come to \$2,900.

**Easy Decision, Small Price**

The model we teach is our basic Executive building block. Build more of these groups—by developing leaders under leaders under leaders—to turn your single group into a network empire. An advantage we all have in 2012 and 2013 is that Vollara is still very small. Networking veteran Bob Giddens estimates that Vollara will add 10,000 Executives by 2022. Incomes 10, 20, or even 40 times larger than \$30,000 are possible. Your piece of the pie can be as large as your skills, efforts, and vision can take you.
