

# Not Easy ...but simple

Do you have a  
career plan that  
is better than  
\$390,000 per year  
for life?

1. Say yes. Decide to do it. Decide today.
2. Make a long term commitment to using our 5 Essential products (beginning with a Fast Start Pack).
3. Decide to be a leg builder, with a goal to build at least five strong legs in five years. Faster is okay! Slower is okay! Quitting is not okay.
4. Don't complicate your plan by getting carried away with other aspects of Vollara (elaborate training programs, for example); involved is okay; carried away is not!
5. Learn to ask this question: **"If I can show you how to make \$390,000 per year—with a very high chance for success, will you listen and consider participating?"**
6. Look for good people and teach them this same plan.
7. Use the Million Friends system if you do not have another favorite system. It's clean, easy, and honest.
8. Talk to new prospects regularly (numbers, numbers, numbers). This whole plan is simple, but it's not a free ride.
9. Help each of your 5 legs (or 10 so you'll have some spares) branch into other geographical areas.
10. If problems come along, take them in stride. The end result matters a lot; the problems do not.
11. Teach this exact system all the way down your group.
12. Don't make your life harder by trying to reinvent the wheel. These 12 instructions will take you to the place you want to be.
