

The number of hours you spend is entirely up to you. With two good people, Option 1 success can be achieved on a very part time basis.

How Many Friends?

Some people will initially say no and then change their minds when they see your progress. Your belief level and commitment are the keys.

Option 1

Tell 2 and earn \$1,000 or more per week.

TELL 2...

0 0

WHO TELL 2

0 0 0 0

WHO EACH TELL 2

0 0 0 0 0 0 0 0

WHO TEACH THIS SAME IDEA

DOWN THE LINE

0000 0000 0000 0000

Keep it going. When the GV in both sides goes over * 10,000 per week, your check will reach \$1,000. Any combo of orders (all levels) will suffice, including 4 Living Water Essentials orders in each leg. Up to \$2,000 per week is possible with 2 legs.

Option 2

To build a \$390,000 per year career, tell 3 per week for 1 year... Recruit 1 of 3.

A career approach is different from 2-by-2. You build not just 2 legs, but a "wide" network.

0 ★ 0 0 ★ 0 ★ 0 0 0 ★ ...

You must identify 7 really good ones (★) who, at the very least, build 2-by-2 groups. A \$390,000 career requires 7 strongly productive legs.

A \$7,500 per week career can be in place within 1 year, but you'll need to invest a couple more years to solidify your group.

The Extreme

Use Options 1 and 2. In the end you must find 22 super committed people. You'll have to tell as many as it takes.

To reach the top of our plan, 11 massive legs are needed. The secret: 22 Option-2 legs.

An Option 2 guy should build 14 Option-1 legs. Only 7 legs are needed, but we "double it" to cover contingencies.

Which of these Options is the most attractive choice for you?

* Higher GV (more orders) can generate up to twice this amount with a base of only 2 legs. To make more than \$2,000, build wider.
